Description

?????????? ?????? VoIP Grandstream UCM6208 IP PBX Appliance

Grandstream UCM6208 IP PBX Appliance has been designed to provide a centralized solution for businesses communication needs. It combines enterprise-grade voice, video, data, and mobility features in an easy-to-manage fashion. This IP PBX allows businesses to unify multiple communication technologies, such as voice, video calling, video conferencing, video surveillance, data tools, mobility options and facility access management onto one common network that can be managed and/or accessed remotely. The secure and reliable UCM6208 delivers enterprise-grade features without any licensing fees, costs-per-feature or recurring fees.

Key Features & Benefits:

- 8 Integrated PSTN trunk FXO ports, 2 analog telephone FXS ports with lifeline capability and up to 50 SIP trunk accounts
- Supports up to 800 users and 100 concurrent calls
- 2 Gigabit network ports with integrated PoE and NAT Router
- Up to 6 conference bridges and 32 attendees per bridge
