Description

???????? ???????? VoIP Alcatel IP30 Cordless IP DECT Desktop Phone

Alcatel IP30 is a very practical, cordless IP DECT deskphone compatible with Alcatel's IP2015, 2115 & 2215 DECT Phones. It enables you to expand your IP DECT mini-system according to your company needs. No extra cabling or configuration are required. Just pair it to the base of your IP DECT solution IP2215, plug it and it works. Enjoy all the comfort of a DECT deskphone through its large backlit display, hands free function and a user-friendly keypad coupled with 2x16 one-touch speed dial keys. Easily spot & call your top contacts as well as make use of the most common business features such as transfer, conference, etc...
Also enables you to have access to local, shared & network phonebooks for optimal contact management.
