Description

DECT Repeater Grandstream DP760 Long Range Wideband

DP760 is a powerful wideband DECT repeater (wireless relay station) that auto-associates to Grandstream's DP750 DECT base station. Extends the covering range for an additional 300 meters outdoors & 50 meters indoors, giving users more freedom to move around their home or work space. This Wideband DECT Repeater relays up to 2 concurrent HD calls, provides Ethernet connection with integrated PoE for convenient installation plus a variety of remote features including provisioning, status monitoring and repeater firmware upgrades. When paired with Grandstream's DP750 DECT VoIP base station & DP720 handsets, the DP760 offers a powerful extended DECT solution for users looking to add coverage to their VoIP DECT system.

Key Features & Benefits:

- Supports up to 2 concurrent HD calls
- Extends an additional range of 300m outdoors and 50m indoors
