Description

???????? Alcatel TEMPORIS IP301G SIP Phone with PoE

The Temporis IP301G SIP Phone belongs to Alcatel's evolution series. It has been designed to perfectly meet business needs. With Temporis IP301G mobility is at hand. It enables you to pair a wireless DECT handset (Alcatel IP15) and/or a DECT headset (Alcatel IP70H) to the embedded DECT base of the desktop phone and communicate as you wish. This unique feature on the VoIP market offers mobility within a flexible & evolutive solution in a very cost-effective way. Manage easily your lines thanks to the dual backlit BLF keys. Those programmable multifunction keys (12x2) can also be set to directly access the features you most commonly use such as call forward, call transfer & more. Also supports 2 Gigabit Ethernet ports, PoE, HD Sound, access to local & network phonebooks for enhanced contact management, even from your paired cordless handset.
