Description

Video Conferencing Endpoint Grandstream GVC3210 4K Ultra HD

Grandstream's GVC3210 innovative video conferencing endpoint is ideal for businesses seeking an easy-to-use yet potent video conferencing solution. By supporting top-tier video resolutions up to 4K Ultra HD, the GVC3210 turns any video conference into a powerful, clear & enhancing experience. Designed to allow users to customize their solution according to their specific communication needs, GVC3210 can be paired with most video & web conferencing services creating a multi-point conferencing system. This video conferencing endpoint runs on the Android™ OS offering full access to the Google Play Store™. This allows users to utilize any Android™ conferencing or communication application.

Grandstream GVC3210 comes equipped with sophisticated Noise-Shield technology blocking out background noise & maximizing audio quality. Additional features include advanced 4-microphone array with beam-forming capability, a high-end 16M pixel CMOS sensor with ePTZ for easy camera view adjustments & Miracast wireless for convenient content sharing. This simple yet powerful video conferencing endpoint is the ideal choice for SMBs looking for a price-friendly option that still carries the high-end features needed to sustain high-quality business communications.
