### Description

## Grandstream GWN7600 Mid-Tier 802.11ac Wave-2 WiFi Access Point POE

Grandstream GWN7600 is a mid-tier 802.11ac Wave-2 WiFi access point for small to medium sized businesses, multiple floor offices, commercial locations and branch offices. Offers dual-band 2x2:2 MU-MIMO with beam-forming technology and a sophisticated antenna design for maximum network throughput and expanded Wi-Fi coverage range up to a 165m. To ensure easy installation and management, GWN7600 uses a controller-less distributed network management design in which the controller is embedded within the product's web user interface. This allows each access point to manage a network of up to 30 GWN76xx series APs independently without needing separate controller hardware/software and without a single point-of-failure.

Grandstream GWN7600 wireless access point can be paired with any third party routers as well as Grandstream GWN series routers. With support for advanced QoS, low-latency real-time applications, 450+ concurrent client devices per AP and dual Gigabit network ports with PoE, GWN7600 is an ideal WiFi access point for medium wireless network deployments with medium-to-high user density.

### Key Features & Benefits:

- 1.27Gbps wireless throughput and 2x Gigabit wireline ports
- Dual-band 2x2:2 MU-MIMO with beam-forming technology
- Support 802.3af Power-over-Ethernet (PoE)
- Support 450+ concurrent WiFi client devices

- Advanced QoS to ensure real-time performance of low-latency applications
- Up to 165-meter coverage range
- Anti-hacking secure boot and critical data/control lockdown via digital signatures, unique security certificate/random default password per device
- Embedded controller allows GWN7600 to auto-discover, auto-provision and manage up to 30 GWN7600s in a network
- 2 Year Warranty

### Package Contents:

- GWN7600 802.11ac Wave-2 Wireless AP
- Mounting Kits
- Quick Start Guide
